03 | CONTACT

With over **60 years** of extensive experience in **the assembly and maintenance of industrial facilities and the development of engineering and construction programmes for industry**, NERVIÓN INDUSTRIES is one of the **leading corporations** in the industrial market.

As specialised contractors, it offers comprehensive solutions and a wide range of programmes and services to meet the needs of its customers and provide services to all types of industrial sectors.

INDUSTRIAL SERVICES

Mechanical assembly of industrial plants. Corrective, preventive and comprehensive maintenance work, including refurbishments during scheduled shutdowns.

STORAGE TANKS

Comprehensive (EPC) customised solutions for the storage of liquid, bulk and gaseous products (tanks, spheres, silos, etc.) for both individual tanks and complete parks and terminals

GREEN ENERGY

Photovoltaic plants, from BOS to EPC.

Hydraulic Power Plants: activities including machinery renovation, redesign engineering, penstocks, safety valves and gates, and associated elements.

CLEAN AIR SYSTEMS

Specialised, tailor-made solutions for environmental pollution control in all types of industries. NerviÓN offers the best solutions, adapted to each customer, to respect the environment and ensure compliance with the most stringent regulations.

Nervion in figures

- 15%
- Energy

- 35%
- Oil & Gas y Petrochemicals

- 50%
- Basic Industry and others

More than 2,000 people, including engineers, technicians, foremen, team leaders and production staff.

Annual capacity of between **4 and 5 million direct hours**

Turnover in 2025: **€200 million**

Red de Delegaciones Nacionales

Delegaciones Internacionales:

Lisboa y Sines (Portugal)
Buenos Aires (Argentina)

Con la red de Delegaciones organizadas de una forma descentralizada, ubicadas en los grandes centros industriales españoles, ofrece Proximidad, Flexibilidad, y Atención en el Servicio a sus clientes

Implantación geográfica

Nervión Industries en el mundo.

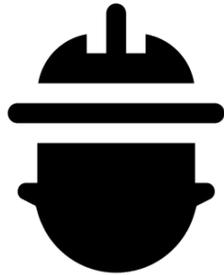

The way we work:

Safety

Only safe work is good work.

That's why we are committed to meeting all international safety standards.

Health

People's health is our greatest asset.

That is why we treat it with the utmost responsibility.

Quality

Quality is our incentive.

We execute projects on time and in accordance with the highest quality standards.

Environment

Environmental protection is an obligation

We focus especially on objectives such as energy efficiency and waste prevention.

Our services are built on the principles and standards of ISO 45001, 9001, 14001, 3834-2 and EN-1090-2 certifications, ensuring unmatched quality and safety in all aspects of your operation.

INDUSTRIAL PLANT ASSEMBLY

- Design, supply, prefabrication, assembly and maintenance of all types of chemical, petrochemical and industrial plants
- Assembly of static and dynamic equipment
- Manufacture and assembly of pipes in accordance with ASME and EN standards
- Specialised solutions for environmental pollution control in any type of industry (FIVEMASA)
- CE marks, legalisation, REP installers
- Design, prefabrication, supply, assembly and repair of all types of storage tanks (vertical, spherical, etc.)
- Manufacture and assembly of storage tanks
- Civil engineering works
- Electrical and instrumentation
- Cranes
- Consultancy on storage plants (condition assessment, necessary repairs, redesign, optimisation, etc.)

Corrective, Preventive and Comprehensive Maintenance of Industrial Plants: Revamping and Scheduled Shutdowns

- Mechanical maintenance of facilities, machinery and mechanical equipment
- Maintenance of Regulation and Measurement Stations (ERMs)
- Scheduled shutdowns of facilities, machinery and mechanical equipment
- Inspection of rotating equipment
- Comprehensive maintenance of energy infrastructure
- Industrial maintenance programmes based on KPIs developed ad hoc for our clients with implementation of CMMS and Bonus-Malus management
- Major inspections during scheduled shutdowns of facilities
- Special operations, such as hoisting and assembly of heavy equipment, special crane manoeuvres, removal of equipment in operational areas

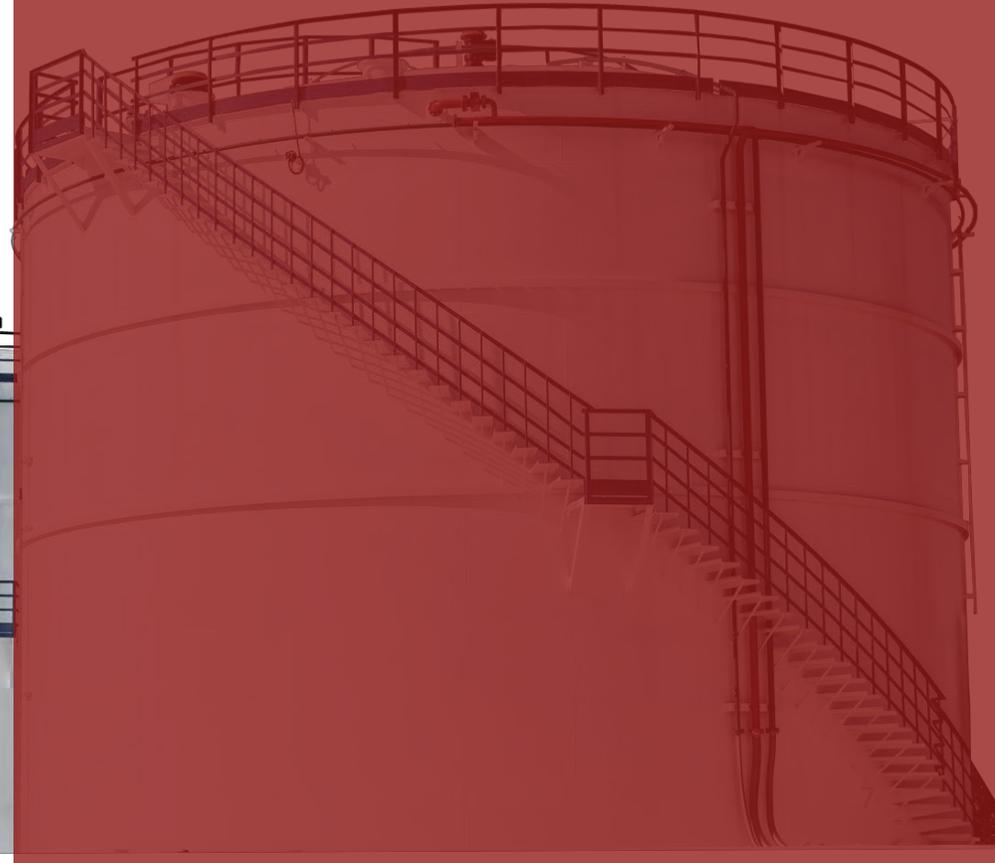

Comprehensive customised **solutions (EPC)** for the storage of liquid, bulk and gaseous products (tanks, spheres, silos, etc.) for both individual tanks and complete parks and terminals

- Construction and assembly of LNG tanks
- Hydrocarbon storage tanks
- Special storage tanks
- High-temperature tanks for solar thermal plants
- Spheres and tanks
- Basic detailed engineering
- Manufacture of structures associated with tanks

+ 400 tanks with more than 12 million m³ built in more than 20 countries

ENGINEERING, MANUFACTURING AND ASSEMBLY OF STORAGE TANKS

PHOTOVOLTAIC PLANTS

Photovoltaic plants, from BOS to EPC

Design, construction and commissioning of large-scale photovoltaic plants and industrial self-consumption

Design and construction of **electrical substations** and low and high voltage lines, both underground and overhead

Design and construction of **wind farms**.

Energy hybridisation, solar-wind

Energy storage systems (**BESS**)

Renewable gas/biomethane production plants

Operation and maintenance of renewable infrastructure

We contribute to the energy transition by leading the construction of projects within the renewable energy sector.

As part of our growth project in the **Hydraulic Power Plants** division, many customers are placing their trust in Nervión to collaborate on different projects of all types, including:

- Machine refurbishments
- Redesign engineering
- Penstocks
- Safety valves
- Gates and associated elements
- Refrigeration, SSAA
- Overhead cranes
- Electromechanical work of all kinds
- Welding

We are currently equipped to take on any technical challenge, including redesigns of both machines and associated components.

HEALTH AND SAFETY AWARDS

Nervión is firmly committed to safety and prevention, as demonstrated by the bonuses and awards it receives year after year in this area.

- REPSOL TARRAGONA AWARD FOR THE MOST OUTSTANDING COMPANY IN SAFETY, 2018*
- REPSOL CARTAGENA AWARD FOR THE MOST OUTSTANDING COMPANY IN SAFETY, 2019*
- REPSOL CARTAGENA AWARD FOR THE MOST OUTSTANDING COMPANY IN SAFETY, 2020*
- REPSOL PUERTOLLANO AWARD FOR THE MOST OUTSTANDING COMPANY IN SAFETY, 2019*
- REPSOL PUERTOLLANO AWARD FOR THE MOST OUTSTANDING COMPANY IN SAFETY, 2019-2020-2022*
- PORT AVENTURA AWARD FOR THE MOST OUTSTANDING SECURITY COMPANY, 2021*
- REPSOL CORUÑA AWARD FOR THE MOST OUTSTANDING COMPANY IN SAFETY, 2021*
- BP CASTELLON SAFETY AWARD DURING THE 5TH GENERAL TECHNICAL SHUTDOWN WEEK OF 2023*
- ARQUICMA CLODOALDO JIMENEZ IZQUIERDO AWARD, WORKER RECOGNITION, 2024*
